Claims 1-16 are allowed.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Rust (US 4332831), Brockwell et al (US 4539902), or Davis (Cheese Vol. III).

Rust teaches a pressed cheese curd formed into a cylindrical block of cheese which is then sliced (see entire patent, especially the abstract).

Brockwell et al teach a pressed cheese curd formed into a cylindrical block of cheese which is then sliced (see entire patent, especially the abstract).

Davis (Cheese Vol. III) teaches the conventional production of Cantal cheese which is the same as is claimed (see entire document).
